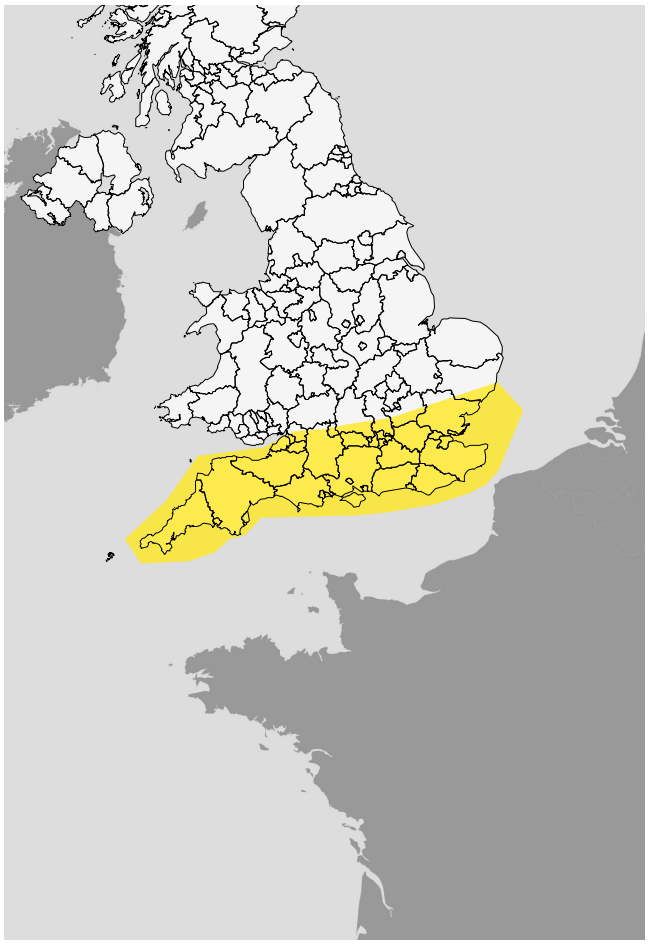
Yellow warning
Rain

Between
02:00 Tue 29 May 2018 and
22:00 Tue 29 May 2018



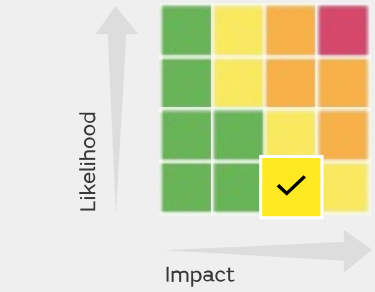
Some places escaping, but thundery rain or showers could bring local flooding.

What to expect

- There is a small chance that homes and businesses could be flooded or struck by lighting, causing damage to some buildings.
- Where flooding occurs, there is a slight chance of delays or cancellations to train and bus services.
- Spray and flooding could lead to difficult driving conditions and some road closures.
- There is a slight chance that flooding or lightning strikes could cause power cuts and loss of other services to some homes and businesses.

Further details

Some places will probably stay dry or at least miss the worst of the showers. However, the humid air across parts of southern UK may again encourage further outbreaks of thundery activity. Where this happens up to around 30 mm could fall in an hour or less, with flooding a possibility.



Very low likelihood of medium impacts
